ADVANCES IN ATMOSPHERIC SCIENCES

Vol.14 No.1 1997

CONTENTS

Model Study on the Interannual Variability of Asian Winter Monsoon and Its Influence
..... *Ji Liren* (纪立人), *Sun Shuqing* (孙淑清) and *Klaus Arpe* et al. (1)

Notes on Extended-Range Atmospheric Prediction in the Northern Hemisphere Winter
..... *Shingo Yamada, Shuhei Maeda* and *K. Gambo* (23)

Teleconnection Patterns in the Northern Hemisphere Simulated by IAP GCM
..... *Xue Feng* (薛 峰) and *Zeng Qingcun* (曾庆存) (41)

Adjoint Matching Condition for Parameterized Discontinuities—A Derivation Using Lagrangian-form Costfunction ..... *Xu Qin* (许 秦) and *Qiu Chongjian* (邱崇践) (49)

An Economical Consistent Dissipation Operator and Its Applications to the Improvement of AGCM
..... *Wang Bin* (王 斌) and *Ji Zhongzhen* (季仲贞) (53)

The Influence of Weakly-Nonlinear Vertical Advection on the Wind Field of PBL with Large-Scale Orography
..... *Wang Ling* (王 岭) and *Xu Yinzi* (徐银梓) (59)

The Influence of Tibetan Plateau on the Interannual Variability of Atmospheric Circulation over Tropical Pacific
..... *Wu Aiming* (吴爱明) and *Ni Yunqi* (倪允琪) (69)

The Effect of Heating Anomaly on the Asian Circulation—A GCM Experiment
..... *Wang Huijun* (王会军) (81)

Comparison of Long-Term Forecasting of June-August Rainfall over Changjiang-Huaihe Valley
..... *Jin Long* (金 龙), *Luo Ying* (罗 莹) and *lin Zhenshan* (林振山) (87)

A Comparative Study of the Atmospheric Layers below First Lifting Condensation Level for Instantaneous Pre-Monsoon Thunderstorm Occurrence at Agartala (23°30′N, 91°15′E) and Ranchi (23°14′N, 85°14′E) of India
..... *Sarbari Ghosh* and *Utpal Kumar De* (93)

Seasonal Variations in the Vertical Structure of Water Vapor Optical Depth in the Lower Troposphere over a Tropical Station ..... *P. Ernest Raj* and *P. C. S. Devara* (103)

Adjoint Sensitivity Analyses on the Anomalous Circulation Features in East Asian Summer Monsoon
..... *Yang Yan* (杨 燕), *Li Zhijin* (李志锦) and *Ji Liren* (纪立人) (111)

No.2

Special Issue on the East Asian Monsoon and the South China Sea Monsoon Experiment (SCSMEX)

The Present Status and Future of Research of the East Asian Monsoon
..... *Ma Henian* (马鹤年) and *Ding Yihui* (丁一汇) (125)

Climatology and Interannual Variability of the Southeast Asian Summer Monsoon
..... *K.-M. Lau* and *Song Yang* (141)

Seasonal and Extraseasonal Predictions of Summer Monsoon Precipitation by Gcms
..... *Zeng Qingcun* (曾庆存), *Yuan Chongguang* (袁重光), *Li Xu* (李 旭) et al. (163)

Peculiar Temporal Structure of the South China Sea Summer Monsoon
..... *Bin Wang* and *Renguang Wu* (177)

South China Sea Warm Pool in Boreal Spring
..... *Peter C. Chu* and *C.-P. Chang* (195)

Review of the Researches on Changma and Future Observational Study (KORMEX)
..... *Jai-Ho Oh, Won-Tae Kwon* and *Sang-Boom Ryoo* (207)

Regional and Synoptic-scale Features Associated with Inactive Periods of the Summer Monsoon over South China ..... *C. H. So* and *Johnny C. L. Chan* (223)

Seasonal Transition of Summer Rainy Season over Indochina and Adjacent Monsoon Region
..... *Jun Matsumoto* (231)

Evolution of Intraseasonal Oscillation over the Tropical Western Pacific / South China Sea and Its Effect to the Summer Precipitation in Southern China ..... *Li Chongyin* (李崇银) and *Li Guilong* (李桂龙) (246)

The South China Sea Monsoon Experiment (SCSMEX) Implementation Plan
..... *Ding Yihui* (丁一汇), *Chao Qingchen* (巢清尘), *Zhang Yan* (张 雁) et al. (255)

Interannual and Interdecadal Variations in Heat Content of the Upper Ocean of the South China Sea
..... *He Youhai* (何有海), *Guan Cuihua* (关翠华) and *Gan Zijun* (甘子钧) (271)

Observational Study on the Onset of the South China Sea Southwest Monsoon
..... *Yan Junyue* (阎俊岳) (277)

No.3

Impacts of Land Surface on Climate of July and Onset of Summer Monsoon: A Study with an AGCM plus SSiB
..... *Liu Hui* (刘 辉) and *Wu Guoxiong* (吴国雄) (289)

Relationships between Atmospheric Circulation Patterns and CO_2 Greenhouse-Gas Concentration Levels in the Alpine Troposphere ..... *A. Longhetto, S. Ferrarese, C. Cassardo* et al. (309)

Development and Propagation of Equatorial Waves
..... *Xiaofan Li* and *Han-Ru Cho* (323)

Influences of the Extratropical Pacific SST on the Precipitation of the North China Region
..... *Geng Quanzhen* (耿全震), *Ding Yihui* (丁一汇) and *Huang Chaoying* (黄朝迎) (339)

Particle Size Truncation Effect on the Inference of Effective Particle Diameter
..... *Liu Chunlei* (刘春雷) and *Yao Keya* (姚克亚) (350)

A Finite-Mode Model of Ideal Fluid Dynamics on the 2-Sphere
..... *Wei Mozheng* (355)

On the Unified Theory of Atmospheric Particle Systems Part II: Self-affine Particles
..... *Liu Yangang* (刘延刚) (369)

Man-Computer Interactive Method on Cloud Classification Based on Bispectral Satellite Imagery
..... *Yu Fan* (郁 凡), *Liu Changsheng* (刘长盛) and *Chen Weimin* (陈渭民) (389)

Turbulent Fluxes over Inhomogeneous Landscape
..... *Ye Zhuojia* (叶卓佳), *Li Jun* (李 军) and *Fan Sihong* (范思泓) (399)

The African Climate as Predicted by the IAP Grid-Point Nine-Layer Atmospheric General Circulation Model (IAP-9L-AGCM) ..... *Chineke Theo Chidiezie, Bi Xunqiang* (毕训强), *Wang Huijun* (王会军) et al. (409)

Solar Multi-Spectral Radiometric Observations of Atmospheric Optical Thickness over Pasarlapudi Gas Well Blow-Out Site in India ..... *G. Pandithurai* and *P.C.S. Devara* (417)

Seasonal Variations in the Vertical Structure of Water Vapor Optical Depth in the Lower Troposphere over a Tropical Station ..... *P. Ernest Raj* and *P.C.S. Devara* (425)

No.4

A Land Surface Model (IAP94) for Climate Studies Part I: Formulation and Validation in Off-line Experiments
..... *Dai Yongjiu* (戴永久) and *Zeng Qingcun* (曾庆存) (433)

Simulation of East Asian Summer Monsoon with IAP CGCM
..... *Chen Qiying* (陈起英), *Yu Yongqiang* (俞永强) and *Guo Yufu* (郭裕福) (461)

Non-linear Retrieval of Atmospheric Ozone Profile from Solar Backscatter Ultraviolet Measurements: Theory and Simulation ..... *Li Jun* (李 俊) and *Lu Daren* (吕达仁) (473)

Ozone Vertical Profile Characteristics over Qinghai Plateau Measured by Electrochemical Concentration Cell Ozonesondes ..... *Liu Qijun* (刘奇俊), *Zheng Xiangdong* (郑向东), *Luo Chao* (罗 超) et al. (481)

The Influence of Tibetan Plateau on the Interannual Variability of Asian Monsoon
..... *Wu Aiming* (吴爱明) and *Ni Yunqi* (倪允琪) (491)

Vertical Ozone Profile over Tibet Using Sage I and II Data
..... *Zou Han* (邹 捍) and *Gao Yongqi* (郜永祺) (505)

Simulation of East Asian Summer Monsoon by Using an Improved AGCM
..... *Lin Zhaohui* (林朝辉) *Zeng Qingcun* (曾庆存) (513)

Symmetric Development of Meso Perturbation in Zonally Curved Basic Flow
..... *Zhou Weican* (周伟灿), *Chen Jiukang* (陈久康) and *Zhou Shunwu* (周顺武) (527)

The Effect of Mesoscale Flows on Regional Atmospheric Transport in a Complex Terrain
..... *Jia Xinyuan* (贾新媛) (535)

Seasonality of the Interaction between Convection over the Western Pacific and General Circulation in the Northern Hemisphere ..... *Hu Zengzhen* (胡增臻) and *Tsuyoshi Nitta* (541)

The Interannual Variability and Predictability in a Global Climate Model
..... *Wang Huijun* (王会军), *Xue Feng* (薛 峰) and *Bi Xunqiang* (毕训强) (554)

Multispectrum Method and the Computation of Vapor Equation
..... *Ji Zhongzhen* (季钟贞) and *Wang Bin* (王 斌) (563)

Parallel Computing of a Climate Model on the Dawn 1000 by Domain Decomposition Method
..... *Bi Xunqiang* (毕训强) (569)
